

## OPTIONAL 2-12GHZ FREQUENCY EXTENDER PROBE FOR CPM-700

### Optional Broadband Microwave Probe BMP-1200 extends CPM-700 range to 12GHz...

#### Broadband Microwave Probe BMP-1200

2GHz - 12GHz directional probe for the CPM-700 detects and locates modern surveillance devices including frequency hopping transmitters.

- Downconverts 2GHz - 12GHz frequency range for CPM-700
- Antenna Gain: 7dB Nominal
- Sensitivity: -65dBm (1 segment)
- Audible Sensitivity: -70dBm M.D.L.
- Backwards compatible with all CPM-700s

Detects modern sophisticated devices such as frequency hopping, burst/packet, and spread spectrum transmitters.

The BMP-1200 is directional, and more sensitive than the standard RF probe in the common 2.4GHz range.
